¹This is an in-house test method based on a modified version of the Battery Industry for the test methods listed above Standard Analytical Method – April 1998. The inclusion of this method on this Scope does not confer laboratory accreditation; the laboratory is only accredited to SOP 9-40.

²The Consumer Product Safety Improvement Act (CPSIA) requires that every children's product subject to a federal consumer product safety requirement be tested by a Consumer Product Safety Commission (CPSC) accepted laboratory for compliance with the applicable federal children's product safety requirements. Accreditation by A2LA does not infer acceptance by the CPSC. Please verify this organization's acceptance status by using the CPSC's searchable database, located at <https://www.cpsc.gov/cgi-bin/labsearch/>
